Contents of Volume 32, 1993

Number One (G321-0110)

Strategic alignment: Leveraging information technology for transforming organizations 4
J. C. Henderson and N. Venkatraman (G321-5500)

Information technology and the management difference: A fusion map 17
P. G. W. Keen (G321-5501)

New competitive strategies: Challenges to organizations and information technology 40
A. C. Boynton, B. Victor, and B. J. Pine II (G321-5502)

Beyond re-engineering: The three phases of business transformation 65
W. H. Davidson (G321-5503)

A new approach to business processes 80
A. L. Scherr (G321-5504)

Measuring the value of information: The information-intensive organization 99
R. Glazer (G321-5505)

Strategic control in the extended enterprise 111
B. R. Konsynski (G321-5506)

Global business drivers: Aligning information technology to global business strategy 143
B. Ives, S. L. Jarvenpaa, and R. O. Mason (G321-5507)

Improving business and information strategy alignment: Learning from the banking industry 162
M. Broadbent and P. Weill (G321-5508)

Quantitative techniques in strategic alignment 180
P. V. Norden (G321-5509)

Transforming the enterprise: The alignment of business and information technology strategies 198
J. N. Luftman, P. R. Lewis, and S. H. Oldach (G321-5510)

Number Two (G321-0111)

Box-structured methods for systems development with objects 232
A. R. Hevner and H. D. Mills (G321-5511)

I/O subsystem configurations for ESA: New roles for processor storage 252
B. McNutt (G321-5512)

Introduction of the project management discipline in a software development organization 265
T. Raz (G321-5513)

Building business and application systems with the Retail Application Architecture 278
P. Stecher (G321-5514)

System for the recognition of human faces 307
M. S. Kamel, H. C. Shen, A. K. C. Wong, and R. I. Campeanu (G321-5515)

Technical note—Complementarity attacks and control vectors 321
D. Longley and S. M. Matyas (G321-5516)

Number Three (G321-0113)

Process automation in software application development 376
K. D. Saracelli and K. F. Bandat (G321-5517)

Rapid Delivery: An evolutionary approach for application development 397
D. Hough (G321-5518)

The impact of object-orientation on application development 420
A. A. R. Cockburn (G321-5519)

Measurement: The key to application development quality 445
C. Walrad and E. Moss (G321-5520)

A public key extension to the Common Cryptographic Architecture 461
A. V. Le, S. M. Matyas, D. B. Johnson, and J. D. Wilkins (G321-5521)

Morphologically based automatic phonetic transcription 486
K. Wothke (G321-5522)

A storage subsystem for image and records management 512
H. M. Gladney (G321-5523)

Number Four (G321-0114)

Software reuse: From library to factory 548
M. L. Griss (G321-5524)

The business case for software reuse 567
J. S. Poulin, J. M. Caruso, and D. R. Hancock (G321-5525)

Implementing Critical Success Factors in software reuse 595
M. Wasmund (G321-5526)

Technical forum 612
Management of reuse at IBM
J. R. Tirso and H. Gregorius
Information reuse parallels software reuse
K. P. Yglesias
A reusable parts center
D. Bauer

Application reference designs for distributed systems 625
J. J. Shedletsky and J. J. Rofrano (G321-5527)

Advanced Function Printing—From print to presentation 647
R. K. deBry and M. W. Munger (G321-5528)

The continuing evolution of Advanced Function Printing 665
R. J. Howarth and B. G. Platte (G321-5529)
